*A creative developer with 2 years & 11 months of hands-on industry experience, and a keen eye for design and usability.*

*From interactive web pages to animated banner ads, I have been in teams with clients overseas to help them make their ideas come to life.*

## EXPERIENCE

- **Senior Creative Developer, Wideout Workforces Inc.** (Jan 2022 - Apr 2022)  
Worked with an overseas advertising tech company for the following:
  - Converted raw assets provided by clients into rich media ad and web page executions.
  - Translated requirements, graphic designs and specifications into working ads using the core technologies used by the clients, such as Adobe Animate and NEXD.
  - Resized and revised rich media ad units.
- **Creative Developer, Wideout Workforces Inc.** (Jun 2019 - Dec 2021)  
Worked with an overseas vision care health insurance company for the following:
  - Collaborated constantly with requestors and teammates for brainstorming.
  - Developed, maintained and updated web applications and microsites using provided tools.
  - Built custom functionality (when needed) for web pages using HTML, CSS and Javascript.
  - Debugged and troubleshooted related issues, provided support for crucial live projects.
- **Web Development Intern, FFUF Manila Inc.** (Apr 2018 - Jun 2018)
  - Designed and developed a web application called FFUF Dashboard. This application requests employee, team and project data from the company's internal API, which then could be filtered accordingly and visualized using graphs.

## EDUCATION

- **Bachelor of Science in Computer Science, Mabini Colleges of Daet** (April 2019)  
Received commendation for the senior project "Sentiment Analysis on Non-Academic Services of Mabini Colleges, Inc.", built using web technologies, with data extracted via Facebook Graph API, and processed using Text Sentiment Analysis Method API and Yandex Translate API.
- **Eskwelabs Data Science Fellow, Eskwelabs** (May 2022 - Aug 2022)  
Worked in teams for 4, two-week sprints and one capstone project, while learning to use different Python data science tools and libraries for the following case studies:
  - Sprint 1:** "Pamumuhay: An Analysis on the Living Conditions of the Filipino People"
  - Sprint 2:** "Artist4Artists: Maximizing Streams Across VIVA Records"
  - Sprint 3:** "Intel Debrief: Fraudulent Activity in the Philippines"
  - Sprint 4:** "Post-Halalan 2022: A Twitter Presence Analysis"
  - Capstone Project:** "Road to Zero Poverty: A Machine Learning Approach to Alleviating Poverty in Cabanatuan City"
