A creative developer with 2 years & 11 months of hands-on industry experience, and a keen eye for design and usability.

From interactive web pages to animated banner ads, I have been in teams with clients overseas to help them make their ideas come to life.

EXPERIENCE

○ Senior Creative Developer, Wideout Workforces Inc. (Jan 2022 - Apr 2022)

Worked with an overseas advertising tech company for the following:

- Converted raw assets provided by clients into rich media ad and web page executions.
- Translated requirements, graphic designs and specifications into working ads using the core technologies used by the clients, such as Adobe Animate and NEXD.
- Resized and revised rich media ad units.

○ Creative Developer, Wideout Workforces Inc. (Jun 2019 - Dec 2021)

Worked with an overseas vision care health insurance company for the following:

- Collaborated constantly with requestors and teammates for brainstorming.
- Developed, maintained and updated web applications and microsites using provided tools.
- Built custom functionality (when needed) for web pages using HTML, CSS and Javascript.
- Debugged and troubleshooted related issues, provided support for crucial live projects.

○ Web Development Intern, FFUF Manila Inc. (Apr 2018 - Jun 2018)

- Designed and developed a web application called FFUF Dashboard. This application requests employee, team and project data from the company's internal API, which then could be filtered accordingly and visualized using graphs.

EDUCATION

○ Bachelor of Science in Computer Science, Mabini Colleges of Daet (April 2019)

Received commendation for the senior project "Sentiment Analysis on Non-Academic Services of Mabini Colleges, Inc.", built using web technologies, with data extracted via Facebook Graph API, and processed using Text Sentiment Analysis Method API and Yandex Translate API.

○ Eskwelabs Data Science Fellow, Eskwelabs (May 2022 - Aug 2022)

Worked in teams for 4, two-week sprints and one capstone project, while learning to use different Python data science tools and libraries.

TRAININGS

- | | |
|--|-------------|
| ○ Algorithms and Data Structures Certificate - <i>freeCodeCamp</i> | Sept 2018 |
| ○ APIs and Microservices Certificate - <i>freeCodeCamp</i> | Sept 2018 |
| ○ Responsive Web Design Certificate - <i>freeCodeCamp</i> | Sept 2018 |
| ○ Legacy Back End Certificate - <i>freeCodeCamp</i> | Jan 2018 |
| ○ Data Analyst with Python Career Track - <i>DataCamp</i> | Sept 2022 |
| ○ Data Scientist with Python Career Track - <i>DataCamp</i> | In progress |

SKILLS

- | | |
|--|--|
| ○ HTML, CSS & JavaScript | ○ Basic Python |
| ○ JSON & SQL databases | ○ Data Science and Analysis using Python |
| ○ APIs and microservices | ○ Basic photo edits (retouching, background extension) |
| ○ JQuery, Bootstrap & similar frameworks | ○ Banner ad mock-ups using Adobe Photoshop |
| ○ Back end scripting using PHP, Node.js | ○ Video wraps using Adobe After Effects |
| ○ Client-side server requests using AJAX | ○ Animated HTML5 Banners using Adobe Animate |
| ○ Version control with Git | |
