A creative developer with 2 years & 11 months of hands-on industry experience, and a keen eye for design and usability.

From interactive web pages to animated banner ads, I have been in teams with clients overseas to help them make their ideas come to life.

EXPERIENCE

○ **Senior Creative Developer**, *Wideout Workforces Inc.* (Jan 2022 – Apr 2022)
Worked with an overseas advertising tech company for the following:
- Converted raw assets provided by clients into rich media ad and web page executions.
- Translated requirements, graphic designs and specifications into working ads using the core technologies used by the clients, such as Adobe Animate and NEXD.
- Resized and revised rich media ad units.

○ **Creative Developer**, *Wideout Workforces Inc.* (Jun 2019 – Dec 2021)
Worked with an overseas vision care health insurance company for the following:
- Collaborated constantly with requestors and teammates for brainstorming.
- Developed, maintained and updated web applications and microsites using provided tools.
- Built custom functionality (when needed) for web pages using HTML, CSS and Javascript.
- Debugged and troubleshooted related issues, provided support for crucial live projects.

○ **Web Development Intern**, *FFUF Manila Inc.* (Apr 2018 – Jun 2018)
- Designed and developed a web application called FFUF Dashboard. This application requests employee, team and project data from the company's internal API, which then could be filtered accordingly and visualized using graphs.

EDUCATION

○ **Bachelor of Science in Computer Science**, *Mabini Colleges of Daet* (April 2019)
Received commendation for the senior project "Sentiment Analysis on Non-Academic Services of Mabini Colleges, Inc.", built using web technologies, with data extracted via Facebook Graph API, and processed using Text Sentiment Analysis Method API and Yandex Translate API.

○ **Eskwelabs Data Science Fellow**, *Eskwelabs* (May 2022 - Aug 2022)
Worked in teams for 4, two-week sprints and one capstone project, while learning to use different Python data science tools and libraries.

TRAININGS

○ Algorithms and Data Structures Certificate - *freeCodeCamp*	Sept 2018
○ APIs and Microservices Certificate - *freeCodeCamp*	Sept 2018
○ Responsive Web Design Certificate - *freeCodeCamp*	Sept 2018
○ Legacy Back End Certificate - *freeCodecamp*	Jan 2018
○ Data Analyst with Python Career Track - *Datacamp*	Sept 2022
○ Data Scientist with Python Career Track - *Datacamp*	In progress

SKILLS

○ HTML, CSS & JavaScript
○ JSON & SQL databases
○ APIs and microservices
○ JQuery, Bootstrap & similar frameworks
○ Back end scripting using PHP, Node.js
○ Client-side server requests using AJAX
○ Version control with Git

○ Basic Python
○ Data Science and Analysis using Python
○ Basic photo edits (retouching, background extension)
○ Banner ad mock-ups using Adobe Photoshop
○ Video wraps using Adobe After Effects
○ Animated HTML5 Banners using Adobe Animate
